

Ethernet over Fibre to the Cabinet

EoFTTC is a cost-effective way to advance to a high-capacity connection without committing to full fibre Ethernet. With network prioritisation, Quality of Service and a dedicated connection that's just for you, EoFTTC offers more value and reliability than FTTC.

Ideal for:

Rapid transfer of large data files

Move to convergence services - SIP, video conferencing and real-time business applications

Branch offices as part of an IPVPN to access data and business applications

Businesses typically located in residential areas – pubs, cafes, libraries, small business and sole traders

Lines are open Mon-Fri 9am-5pm

How will our EoFTTC solution benefit you and your customers?

Higher bandwidth, lower costs

Delivered over our Next Generation Network, EoFTTC is the entry level connectivity that bridges the gap from contented ADSL to uncontended DIA. EoFTTC offers a guaranteed higher bandwidth of 20Mbps symmetrical with a burstable download of up to 80Mbps with no extra cost.

Fail-safe connectivity

EoFTTC comes with business grade 24/7 support and a 7 hour service level fix time in the unlikely event that your service goes down. We can also offer additional resilience, as well as assistance in getting the connection optimised for your customer's needs.

This is an uncontended, prioritised service meaning you get the bandwidth you need to maintain a consistent level of service for you and your customers, no matter what the time of day.

More margins

EoFTTC provides the perfect platform to support SIP, Hosted Voice and Cloud Connectivity meaning you can drive high margin, long term business. In addition, our new MyNet portal will allow you to quote, provide and manage your services in real time, making the end to end order journey, seamless and pain-free.

Why TalkTalk Business?

TalkTalk Business is one of the UK's fastest growing B2B telecoms providers, offering a full range of business-grade communications products and services, spanning internet access, data, voice and mobile. Our mission is to deliver what matters most to our 180,000+ business and public sector customers, and 800+ Partners, through consistently reliable, easy-to-use, innovative, great value solutions.

TalkTalk Business is truly innovative, looking for ways to disrupt the market and deliver value back to our customers. Following an investment of over £600m, we operate one of Britain's largest Next Generation Networks, with 95% coverage across the UK and more than 3,000 enabled exchanges for Ethernet, EFM and Business Broadband.

With over 20 years' experience providing support to customers - from national retailers to sole traders - and with future-proof, scalable technology, and standout service, TalkTalk Business aims to empower you to connect to the things that matter most: your customers, your employees and your suppliers.
